Goal

Ⅰ 고압환경이 중증환자에게 미치는 생리적 영향에 대한 이해

Ⅱ 중증환자에서의 고압산소치료 적응질환 설명

Ⅲ 중증환자의 고압산소치료 시 필요한 준비사항에 대한 이해

Ⅳ 중증환자의 고압산소치료 시 주의사항에 대한 이해

대한고압의학회
Korean Academy of Undersea and Hyperbaric Medicine

고압환경에서의 중환자치료

Acute critical in HBOT

- CO poisoning
- Cerebral Arterial Gas Embolism
- Intubated patients having wound problem

Critical Care in ER (1 ATM)

Critical Patient Inside Attendant Check List		확인란
준비 물품	Suction set : 크린조, suction catheter, suction tube, tygon tube	
	Emergency bag setting	
	Etc : 쓰레기 처리용 봉투, 라텍스 장갑, 티슈	
치료 전 확인 사항	환자명 / 환자번호 / 환자, 텐더 소지품 확인	
	OR car로 교체	
	Zoll monitor 배터리 확인	
	ET tube cuff 증류수 교체	
	peripheral line 2개 이상, 혹은 C-line insert	
	prep 약물 확인 : Epi, atropine 각 1개 / sedation 약물 ativan/nimbex 각 3개	
	여분 main fluid 1개	
	CTSS disconnection	
	Lung sound 확인	
	Foley open	
	restrain band apply(사지)	
치료 중 확인 사항	**가압 중**	
	Pressure bag 압력 확인 및 조절	
	fluid chamber 조절 또는 전체 잠금 (Loading 방지)	
	환자 상태 확인	
	가압 완료	
	Pressure bag 압력 200이상 / 필요 시 zeroing	
	fluid 상태 확인	
	CTSS connection 및 필요 시 Suction 시행	
	감압 중	
	Pressure bag 압력 확인 및 조절	
	fluid chamber 전체 잠금 (Loading 방지)	
	Lung sound 확인 및 BP, SpO_2 Monitoring	
	high flow ventilation (ambu bagging)	
치료 완료	**치료 완료**	
	fluid 정리 및 사용 약물 응급실 인계	
	환자평가 : v/s, mental 확인	
특이 사항		

Preparing for 2hours of “transport”

- Knowing the patient status
- Endotracheal intubation tube cuff air to distilled water
- Full sedation is better than self-ventilation
- Proper monitoring instrument
- Over-Prep medications and fluid
- Anything that you will need during the treatment session
- Heimlich chest drain valve
  - mechanical one way valve
  - allow air to escape from chest and prevent air from entering chest

- Evaluation of TM for barotrauma needed

Medical devices

- ECG 3-5 leads sufficient

- IBP/NIBP
  - Only compress the NIBP when in constant pressure

- SpO2
  - Normally values close to 100%
  - Respiratory rate and need of assisted breathing can be a sensitive index of ineffective ventilation
  - TcPO2 can be also used

Must Check!

- **V/S, Mental Status, CXR, BST**
- **Glaucoma, Heart failure, 감염성 질환**
- **고막상태**
- **Pacemaker/ICD/insulin pump/기타**
- **폐쇄공포증/불안장애**
- **Position/Ambulatory status**
- **Mask application**

For MONOCHAMBER fire hazard is the MUST.
